Secured personal storage in environments which are usually Dry or Damp Area.

MATERIAL:

Dry Area Link Lockers

Mild Steel, Cold Formed, Riveted and Welded.

Damp Area Link Lockers

Mild Steel, Electro-Zinc, Cold Formed, Riveted and Welded.

FINISH:

Powder Coated, Epoxy / Polyester Colour Coating.

DIMENSIONS:

Standard height: 1800mm

"three-quarter height" 1382mm also available

Available depths mm: 300 / 450 / 550

Available widths mm: 225 / 300 / 400 / 450

LINK LOCKER SERIES:

Link 1800 Series available for:

- Standard Duty
- Heavy Duty
- Super Heavy Duty

STURDY & SECURE

Doors have an all-around reinforcing edge. Reinforcement with a vertical channel section stiffens the door for protection against impact damage.

STEEL HINGES

Steel three-knuckle hinges are welded to the door for added strength.

VENTILATION

Slots in the top and base of the frame allow air to circulate through the locker, optional Ventilated shelves and doors also available.

ESCUTCHEON PLATE

Integral lock cover plate and handle, recesses accept compartment identification self-adhesive numbers.

SECURE LOCKING

Key operated cam locks (deadlock) are the standard lock fitting, supplied with two Keys in a range of 2000 differs.

The Expert Choice for Personal Storage

STANDARD DUTY Personal Lockers

Locker Nesting

LINK 1800 series lockers are supplied as nested units - lockers of the same overall dimensions, sharing common side panels. Locker nesting makes efficiencies in manufacture, delivery, installation and space utilization.

Initial Locker Nest Of 1

Locker Nest Of 2

Locker Nest Of 3

Locker Nest Of 4

SINGLE - TIER LOCKER

Internal Fittings
- Fixed top shelf
- Fixed garment hanging rail (except 300mm deep)
- Two coat hooks

Internal Dimensions
Top compartment height = 329mm
Hanging compartment height = 1405mm
Internal depth
Overall depth - 21mm

Clear Opening Widths
225mm (overall) = 175mm clear
300mm (overall) = 250mm clear
400mm (overall) = 350mm clear

SPECIALIST STORAGE Lockers

Compartment Sizes and Availability

Insight Locker

Insight Series Lockers: with clear security benefits for personal workplace storage.

A range of lockers which allow visibility of items without compromising on Security. The toughened polycarbonate view panels allow at a glance:

- Security inspection, to ensure contents do not pose a security threat or otherwise are inappropriate.
- Visibility of the items inside, acting as real deterrent to casual pilfering
- Identification of the items stored, allowing monitoring of work-wear and equipment for issue or assessment of stock level.

Post Locker

Allows sorted mail to be posted into secure compartments.

Nest of 1, 2 & 3

Suiting Every Personal Space

Bridge Unit

Top coater packs and bridge unit combined storage units features open shelf and hanging rails fitted between a pair of lockers. Where height allows, quatro and sixto lockers can be fitted over bridge units creating additional storage space.

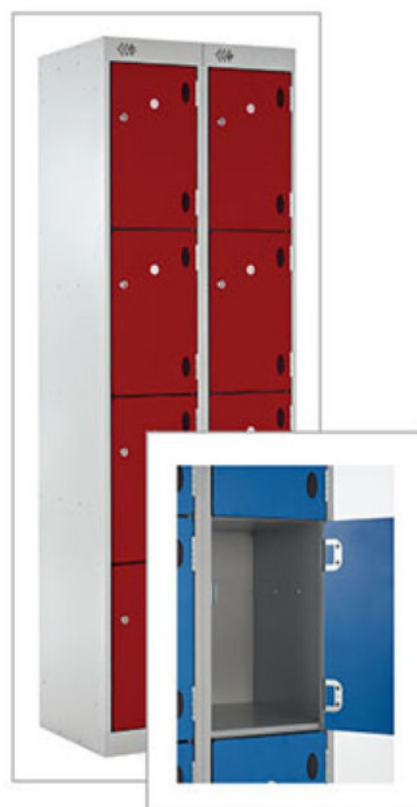

Double Hinged Door Cabinet

Hinged door cabinets provide secure and orderly storage for a variety of items. All cabinets can be configured individually and adapted to your specific storage needs through the flexible use of partition materials and cabinet.

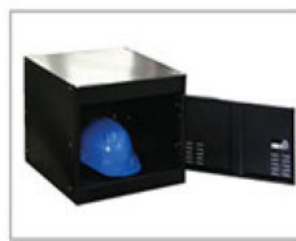

Our New Dry Area LAMINATE LOCKERS

Our range of redesigned dry area laminate lockers combines the versatility of steel lockers with the durability of solid grade laminate lockers.

The solid grade laminate material offers a robust, elegant solution. There is a choice of door styles available with our solid grade laminate lockers, with a range of colours and material designs, to satisfy all requirements.

Plant-on doors cover the front face of the locker carcass creating a wall of colour, while, inset doors offer a full-length hinge to provide continuous support for the door and a visual contrast between the door finish and the dry area laminate locker frame.

MODULAR PERSONAL Lockers

Quarto Modular Lockers

Quarto lockers are supplied as nested units. Specification is based on the Link 1800 Series locker.

CHANGING ROOM Seating

Range and unit types

Benches and Seating

Free-standing units, on a 40mm square steel tube framework.

Bench Unit
400mm high

Seat Unit
single & double-sided
1800mm high

Locker Support Frames

Support Frame:

Raises lockers from the floor, to aid cleaning and reduce scuff damage. 155mm high with fixed foot caps (height adjustable feet also available) Rear legs are inset 50mm for clearance of skirting boards, pipe work etc.

Support Frame with Seat:

Seating integrated with lockers. As support frame, but 400mm high with height adjustable foot cap. Nominal seat depth 300 or 450mm. Also available with an underslung wire rack for shoes below.

LOCKING SYSTEMS for Locker Ranges

Key-operated Cam Lock (standard deadlock) Single-point locking

Supplied with 2 keys.
Master keys available.

Pistol Grip Lock Simple-point locking

For use with a padlock.
Note: padlocks not supplied.
These are available separately.

Key-operated Cam Lock (deadlock) Three-point locking

Supplied with 2 keys.
Master keys available.

Turning the tumbler to each of the number settings releases the lock. Supplied with combination number, instructions and override master key.

Digital Lock

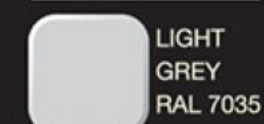

A simple-to-use, battery operated keyless lock which can be programmed for single or multi-users. It offers a high level of security, comparable to Mastered Combination Locks, but as a personal entry code can be set and changed by the user, the digital option gives even greater flexibility. A pre-set master code ensures supervisor access.
